Strict Business Ethics

We **DO NOT** cannibalize businesses.

Using Gonona is a win-win situation for your business growth. In fact, we are quite content at being considered as your **EXTENDED** studio team.

Corporate Social Responsibility

Empowering Women In The Community

We plan to deploy a training center to develop skilled female workers in Bangladesh. We plan to train them in two phases, first developing their communication skills and then equip them with technical knowledge to carry the most critical requirements from our clients. Then we would like to try a pilot project to see whether these women can be employed at our graphics studio. This is our small dream on how we would like to **change the future**.
